Vote in favour of Ottawa.

Ottawa's amendment having been carried in the House of Assembly by a 4 to 20, the Ministerial policy of the Hon. Sec. of Government to Ottawa, been sustained by both Houses. Ever six months ago the Assembly by a vote of 64 to 50 that the Government should not go to Ottawa by a vote of 85 to 55 it resolves itself. Some extraordinary influences have operated with our legislators, and a deliberate vote this session in favour of Ottawa, is equally deliberate and conscious.

tion only 50 members voted for the Ministry—this session 64, the 60; only 43 voted this session. There were 4 absent, viz., Messrs. Minnison, Dawson, Laporte, and Le-; and 5 changed their votes, viz., Drummond, Lefrancis, and Smoot, had formerly in favor of Ottawa, and now against it. The Government, however, had the support of 51 members as to those who supported them, viz.—2 new members, Messrs. A. P. McMillan; 2 who were from last year's vote, Messrs. W. D. Drouin, Galt, Macdonald, McMillan, and 23 who were from the year of Mr. Webb, and Whitney; and 11 who were from last year against Ottawa, and 10 in its favor. Messrs. Hays, Cou-

Robert, Dubord, Labelle, Morin, Paret, Robinson, Simard, and Turcotte, all men, with one exception (Kobolensky), were Canadians. The other changes, the most part accidental, — it is due to change of vote on the part of these Canadian representatives, that has triumphed, and Montreal been lost. What has induced them, in the period of seven months, to change opinion with regard to the unsatisfactory Ottawa, we know not. Their consciences will no doubt look to them for explanation of their extraordinary change.

Meeting at the other side of the divide, we find that last year 64 voted against — this year only 59. To the 64 of last year, 10 were added — 3 of members, Messrs. Caron, Finlayson, and Carcut; 2 of members who changed names, Drummond, Levesque.

let) and 4 of members about to bat who were present this time vote for Ottawa, Messrs. Hartman, Lefrançois, Merritt and Starnes. The additions have made the number 74, but 15 were lost, reducing it to 59. These were those of Mr. Chénais (exile to the Upper House), Mr. Guenver (Mr. McKenna) (re-elected), Mr. Ouellet and those of the 11 members, names we have already recorded as in his party against Ottawa, and this in its favour.

The vote was taken in a very full House, members (including the Speaker) being present; there is only 30 members (North-west), so that only 5 members were Messrs. John Cameron, Dawson, J. A. LeBel, and Ouellet. Of the 20 members present, 32 voted for Ottawa against the Upper

may, therefore, look upon it as a matter, however the result may have brought about, that Ottawa is all but deserted here. It is indeed possible there being "many a slip 'twixt the cup and the lip," that by some new combination of circumstances the scheme may even be frustrated, but we have no reason to entertain any such contingency. In the course of events, if the present Administration successfully surmount the other difficulties connected with the crying of the address, and remain in office, we shall be in a position to support the Government with a low which, under the present state of affairs, is a very high one. We are, therefore, in a position to support the Government with a low which, under the present state of affairs, is a very high one. We are, therefore, in a position to support the Government with a low which, under the present state of affairs, is a very high one.

They have not been sacrificed, as far as I am concerned, by the treachery representatives from whom better things have been expected. But it cannot be said that, however tortuous may be the course by which the result was reached, a decision has at length been pronounced by the only competent body, and so that decision we bow to. It is, indeed, that in the course of a few years the Legislature has changed its mind on this very subject—and it may be a few months more, before a final decision is reached, and return to the way it occupied last season. This is true; but, notwithstanding the characterization which the Canadian Parliament has assumed for itself in connection with this question, we hardly think it probable.

THE MESSAGE BY THE WATER.—On July 1st, a boat was picked up on the shore at Albany, by the coast-guard and there, containing a paper, upon which was inscribed the following:—“Off we go; leaving a whole gale; must give the bounty; water six feet in the making; feet in spite of all hands to jump; master and three of the crew lost. God help us, James Harris, American ship Jane, of Boston, Dec. 1838. If this should happen, by assistance, to reach her, telegraph to London immediately. Cargo overboard. No hopes for the ship.”

It appeared from the Annual Report that while passing through a year of pecuniary embarrassment, without precedent in Canada, the Company had suffered from the depression. The year's business showed a balance of \$24,621, despite this disadvantage.

The liabilities of the Company were \$31,707, being \$47,324 less than the amount due on the 30th June, 1897. \$53,960 had been paid upon the last call, which amounted to \$29,204, and

The total receipts of the Company for Premiums were \$149,480. To pay off the debt of the Company the Stockholders authorized the issue of *Adventures* based upon the security of the unpaid Capital, which amounts to \$1,400,000. For the protection of the public, the D. C. act of 1887 by R. L. Law prohibited the

IMPORTANT
TO FARMERS & RAILWAY CO'S.
NEW & CHEAP MODE OF FENCING.
The Right of which has been secured to the undersigned, by Letters Patent, bearing date

Nov. 18th, 1893.

It consists of a Board or Picket Fence that can be supported in a perpendicular manner, and in a straight line, upon the top of the ground, by means of braces hanging loose between each section, as if hung by hinges, and the coupling together of the sections is such a simple process that a single section can be removed any place in the fence to suit convenience, without the least injury to any other part of the same, and again replaced at pleasure. *In point of Cheapness, Convenience, Durability, and Simplicity of Construction, it is unrivaled, and its superior advantages*

over every other kind of fence now in use, will be it believed, makes it an object for all those who are fond of the fence to purchase it on this principle. About fifty feet of lumber with a half pound of nails will be the entire outlay for a rod of this fence, and also a great saving of labor in time and hand work. This is the GREAT ADVANTAGE of the fence, and under shelter in winter or stormy weather, and set up in a short time, so the Farmer can change the size or shape of his field with very little trouble. The Proprietor is now preparing for the Farmers of England, France, and Russia, seeking to others the advantage of discovery on very moderate terms. Any further information may be obtained on application to the undersigned at Belleville, or of his Agents.

Celebrated Female Pills!
Prepared from a Prescription of Sir J. Clarke, and Dr. J. P. D'Arville, Physician General to the Emperor of Russia.

This invaluable medicine is unfailing in the cure of all those painful and dangerous disorders which the Female constitution is subject to. It moderates all excesses, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES
 It is peculiarly useful. It will, in a short time, bring on the monthly period with a tolerable ease. Each bottle, price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Headaches and Wakes, these Pills will afford a cure when all other remedies have been exhausted. Their powerful remedy, do not contain Iron, calomel, antimony, or any thing harmful to the constitution, and will directions for the use of the medicine, each package, which should be carefully preserved.
